

INTERNATIONAL CONFERENCE ON SPECIAL EDUCATION AND SOCIAL INCLUSION

"IMPROVING SPECIAL EDUCATION QUALITY AT DIGITAL ERA"

About

The digital era is the age of delivering information by using the virtual world (digital). Media capabilities in the digital era make it easier for people to receive information faster than printed media. As a developing country, Indonesia is affected by the progress of this digital era. Special education and social inclusion also have an impact from this digital era. Information and new sciences can be easily gained so as to advance developments in special education and social inclusion.

The aims of this conference is to create a foundation for all intellectuals, educators and academicians and parents in the field of Special and inclusive Social to jointly exchange ideas and views on improving special and inclusive social education in this digital era.
